

# SOCOM556-RC4

SOCOM SERIES LOW BACK PRESSURE SUPPRESSOR

## DESCRIPTION

PRECISION  
MACHINED

EXTREME  
DURABILITY

FAST-ATTACH®  
MOUNTING

HIGH-TEMP  
ALLOY

The SureFire SOCOM556-RC4 is the next evolution of SureFire's revolutionary RC3 low-back-pressure combat suppressor design, which reduces back pressure by 60% over traditional suppressor designs without sacrificing SureFire's legendary accuracy, durability, and flash reduction. The SOCOM556-RC4 features a next-generation gas flow dynamics that further reduces internal flash visibility when viewed from the muzzle, greatly enhancing the user's stealth when facing an enemy. The RC4 front plate also provides even greater durability in the face of combat-level abuse.

Optimized for 10.3" and longer barrels, the RC4 combines decades of SureFire innovation in materials and manufacturing techniques with the most extensive study of suppressor flow dynamics in history, advancing the state of the art in modern suppressor technology. Designed with exclusive parametric modeling and multi-variable aerospace software, the RC4 delivers unprecedented back pressure reduction, resulting in less toxic gas in the operator's face, a cleaner firearm, and superior recoil control, all without compromising the field-proven durability that makes SureFire the most trusted suppressor brand among elite military and law enforcement professionals.

Constructed from U.S. mill-certified Inconel alloy and utilizing CNC laser welding and 3D printing, the RC4 ensures durability and consistent performance. Its Fast-Attach® system allows for quick attachment and removal, making it ideal for both combat and field sports. Proudly made in the U.S.A., the SOCOM556-RC4 sets a new standard in suppressor technology.

## FEATURES

- Next-generation SureFire gas flow dynamics further reduce flash signature
- Revised front plate design provides greater durability when subjected to extreme abuse
- 60% less back pressure results in less toxic gas in the operators face, a cleaner firearm, and superior recoil control
- Optimized for 10.3" and longer barrels; measures 6.3" long and adds only 3.8" to the firearm for minimal impact on handling characteristics
- 100% Inconel construction delivers the combat-proven reliability and durability that established SureFire's SOCOM suppressor legacy
- Patented, tool-less Fast-Attach® design allows quick, easy attachment and removal
- Backward compatible with SureFire's SOCOM Fast-Attach® muzzle devices
- Optimized for SF3P, FH556RC and WARCOMP open-tine flash hidere
- Proudly made in the U.S.A. and guaranteed for life

SPECIFICATIONS		SOCOM556-RC4
BODY COLORS		
CALIBER		5.56 mm (.223 caliber)
CONSTRUCTION		High-Temp Alloy
COATING		Cerakote™ Finish
DIAMETER		1.5 in (3.8 cm)
LENGTH		6.3 in (16 cm)
ADDED TO WEAPON*		3.8 in (9.65 cm)
WEIGHT		17 oz (482 g)

\*Actual length may vary, depending on which SureFire adapter is used

PART#	UPC
